

foam puzzle pieces

simple rhymes

soft foam covers

Apart from providing great fun, Garden of Eden book helps small children to develop counting skills and manual dexterity.

The soft foam pages allow children to explore on their own, and amusing rhymes encourage them to exercise their little fingers while peeling off the puzzle pieces. Sun, stars, planets, birds, fish and variety kinds of animals combined with numbers will help learning of counting and develop vocabulary.

Look at the sky,
there is a lightning!
Though only one
it can be frightening.

Creating the world is a hard job, you see
God started it all with the words „Let there be...”
It took a few days to get it all done
to make all the planets, the moon and the sun
God worked for six days and then took a break
Nothing He created was made by mistake
All of nature’s wonders, all that you can see
From the roaring lion, to the buzzing bee
God created all things for you and for me.

He did it so we could be filled with great awe
And thank Him for making this beautiful world.
The work that He did is a blessing to all
But now there is something of you to be asked:
Some puzzles to solve, are you up for the task?
Let’s go to Eden, together - you and I
That wonderful garden with stars in the sky
We will see its marvelous wonders and then
I will help and teach you how to count to ten.

Lift and Look

**It's not a plum
and it's not a pear.
See the two apples
On the tree over there?**

**Flowers smell nice
and sweet for our noses.
Can you spot three
beautiful roses?**

Lift and Look

Lift and Look

**The sky is filled
with millions of stars
but four of them are
watched by the sun.**

Lift and Look

Five little birds
up in the sky
their Mommy shows them
how they should fly.

Look at this jaw!
It's big and wide!
Whose mouth is that
with six teeth inside?

Seven small fish
in deep ocean blue
counting them all
should be easy for you.

Lift and Look

Lift and Look

This ladybug's busy
and she will not wait.
Quickly! Count the spots!
There should be eight.

Nine baby owls
hide in the nest
Their busy mama
Could use some rest.

Lift and Look

Ten tasty peanuts,
One fluffy tail,
Is that a squirrel?
Can anyone tell?
